# JetBrains Internships: Result of the test task round

**JetBrains Internships** <noreply@internship.jetbrains.com> 7 October 2025 at 17:13
To: mykolams.work@gmail.com

Hello Mykola MS,
Thank you very much for completing the test assignment!

Your report is detailed, structured, and shows a deep understanding of QA processes and testing principles. It's clear that you already have strong hands-on experience and a professional approach to quality assurance.
Because of that, we believe an internship might not be the best match for you.
We'd warmly encourage you to check open QA engineer positions instead — your skills and experience could be a great fit there.

Sincerely,
JetBrains Internships Team
